A CHEMICAL PARTNER COMMITTED TO YOUR SUCCESS

- ENVIRONMENTALLY FRIENDLY CHEMICALS
- PROPRIETARY FORMULAS DEVELOPED BY A PROFESSIONAL BREWER, CHEMIST WITH OVER 25 YEARS SUCCESSFUL BREWING EXPERIENCE

VALUE ADDED SERVICES:

24/7 Tech Support by Brewing Chemists

- I. Complete Lab Testing
 - a. Brewing Water
 - b. Finished Beer
 - c. Nutritional Labels
- II. Consultation
 - a. Water Analysis
 - b. Wastewater Management
 - c. Process Improvement
 - d. Proper Passivation
- III. Boilers
 - a. Consulting
 - b. Maintenance
 - c. Technical Support

enviro-BRITE Solutions
FOR BREWERIES & DISTILLERIES

NON STOCK ITEMS

- 377292
GFS112 CITRIC BRITE POWDER
50# organic acid used to increases acidity
- 377043
GFS113 FOOD GRADE
PHOSPHORIC ACID 85%
55G food grade phosphoric acid
- 377072
GFS116 STONE BRITE
5G safely removes beer stone
Temp 90-120 degrees
- 377192
GFS118 HYDROGEN BOOST BRITE
5G hydrogen peroxide booster used in CIP cleaning
removes tough staining
- 377297
GFS119 LACTIC ACID 88%
5G food grade lactic acid
- 377295
GFS119 CaCO3 CALCIUM CARBONATE
50# water salt to raise pH for brewing water
- 377296
GFS119 CaSO4 CALCIUM SULFATE
50# water salt to lower pH for brewing water
- 377294
GFS119 CaCL2 CALCIUM CHLORIDE
50# water salt to lower pH for brewing water

SPECIAL ORDER

- GFS112 NITRIC CITRIC BRITE
5G 1-4oz per 3G water
powerful blend of nitric and citric acid for use on
stainless steel tanks, piping and associated equipment.
Removes water minerals, beer stones and passivates
stainless steel. Temp: 90-120 degrees
- 464745
GFS119 PAA TEST STRIPS
QTY 50 peracetic test strips 0-1000 ppm
